

Year 3 Autumn 2021 Theme: Globe Trotters

We will be exploring the physical and human characteristics of UK and Europe. Pupils will learn about the main divisions of the globe, including hemispheres and the imaginary lines on the map.

We will be developing our map skills by locating countries, cities, rivers, mountains and oceans.

Our journey will end with pupils celebrating and dressing in a costume from their country of origin. So pop back at the end of the term to see our amazing learning journey.
